The Committee of the Privy Council have had
before them a report from the Minister of Indian Affairs
and Northern Development, representing:

That in order to develop asbestos products located
near the Forty Mile River in the Yukon Territory, Cassiar
Asbestos Corporation Limited, a body corporate incorporated
under the laws of Canada proposes to construct and develop
a townsite at the settlement of Clinton Creek in the Yukon
Territory;

That the said proposed townsite will be planned,
surveyed and serviced by the said Cassiar Asbestos Corpor-
ation Limited;

That, in the opinion of the said Cassiar Asbestos
Corporation Limited it is necessary that the said corpor-
ation should purchase approximately 398 acres of land in
order to prevent unplanned fringe development and otherwise
to assure the planned and orderly development of the proposed
townsite;

That section 6 of the Territorial Lands Act pro-
vides that no more than 160 acres of territorial lands may
be sold to any one person without the approval of the
Governor in Council;

That paragraph (b) of subsection (1) of section
7 of the Territorial Lands Regulations provides that where
land having an area in excess of ten acres is sold, and
the purchaser thereof subdivides the land or any portion
thereof into townsite lots, that one-third of the lots in
the land so subdivided shall revert to the Crown;

- 2 -

That the said Cassiar Asbestos Corporation Limited will bear all costs of the development of the proposed townsite and that it therefore appears just and equitable that the Crown should waive its rights under paragraph (b) of subsection (1) of section 7 of the Territorial Lands Regulations to the reversion of one-third of the lots in the said subdivided land; and

That it appears that the development of the said proposed townsite may well stimulate development and economic growth in the Yukon Territory.

The Committee, therefore, on the recommendation of the Minister of Indian Affairs and Northern Development, advise that Your Excellency may be pleased, pursuant to section 6 of the Territorial Lands Act and the Territorial Lands Regulations to

- (1) approve the sale to Cassiar Asbestos Corporation Limited of the lands shown on a plan of the Clinton Creek Campsite Boundary, dated March 8th, 1967, of record on file 6-52 in the Territorial Division of the Northern Administration Branch of the Department of Indian Affairs and Northern Development in the City of Ottawa, in the Province of Ontario; and

AT THE GOVERNMENT HOUSE AT OTTAWA

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

Whereas the Minister of Transport reports
as follows:

That the Department of Transport has for several years been operating a power generating plant at the radio station of the Department of Transport at Coppermine, Northwest Territories, making surplus power available to others in the area;

That demands for power by others have grown and are currently rising such that the Department is no longer able to assume responsibility for meeting such demands and, in the interest of overall economy Northern Canada Power Commission has agreed to assume full operational control and ownership of the said power generating system, not including however the generating plants and the power house, such control and ownership to be transferred from the Department of Transport to Northern Canada Power Commission subject to the following conditions:

- (a) NCPC will assume full control of the Departmental distribution system when the Commission is prepared to deliver power from its new facilities; the NCPC will then assume responsibility for generation and distribution of electrical energy to all users;

- 2 -

- (b) The DOT will be billed on a single billing either on the basis of bulk metering or individual metering in which case the billing will include an itemized account of the individual meter readings; and
- (c) NCPC be granted the right to distribute power to their customers through the DOT metered system provided that:
 - (i) Connections are made only after consent is received from the DOT designated official;
 - (ii) NCPC recognize that DOT will not invest in copper or transformer enlargements to satisfy non DOT load growths;
 - (iii) NCPC will deduct from the DOT primary meter reading, 108% of the total metered consumption of other users; and
- (d) That DOT be granted the right to resell power in operational areas; this right is not to be considered as a responsibility;
- (e) NCPC agree to provide DOT with attachment rights for low voltage systems and area or roadway illumination equipment;
- (f) NCPC will render accounts for energy consumption monthly; and
- (g) NCPC maintain the primary distribution system, both overhead and underground in its entirety; and secondary distribution to the point of attachment to buildings for overhead systems or to the point of tap-off for underground systems feeding establishments.

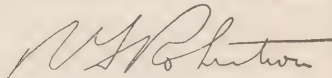

- 3 -

NCPC guarantee energy continuity with due recognition of operational priority requirements during periods of power shortage. Departmental emergency power systems are for the protection of essential services only in cases of emergency, and must not be construed as being available to supplement the power system during peak load periods. The dual primary circuit, originally developed to segregate the power supply to the transmitter site, is required until an emergency power plant is installed at the transmitter site.

The said proposed transfer was reviewed by Crown Assets Disposal Corporation who have authorized the Department of Transport, in the circumstances, to dispose of the said facility to Northern Canada Power Commission.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Transport, pursuant to section 35 of the Public Works Act, is pleased hereby to transfer from the Minister of Transport to the Northern Canada Power Commission, the management, charge and direction of the electric power distribution system at Coppermine, Northwest Territories, currently valued at approximately \$28,000, not including however the generating plants and the power house, but including spares, tools, pole lines and underground cables.

The Committee of the Privy Council have had
before them a report dated 20th April, 1967, from the
Minister of Veterans Affairs, representing;

That subsection (1) of section 24 of the Veterans
Land Regulations provides that the Director may not approve
financial assistance on behalf of a veteran qualified as a
small holder on an area of land containing less than one-
half of an acre in area but, at the discretion of the
Director, this area may be reduced by one-half of one per
cent;

That at the request of qualified veteran James
Hector MacGuish, The Director, The Veterans' Land Act, agreed
to purchase a part of Lot 7, Concession 1, Township of East
Oxford, County of Oxford, Province of Ontario, said to contain
0.6 of an acre in area and the letters of acceptance to the
vendor and of approval to the veteran outline the necessity
of a survey to stake the property and confirm the area as not
less than one-half of an acre;

That the said parcel of land is irregular in shape
in that its side boundaries are not at right angles to the
road and, as a result, on calculation of the area it was
determined to be 19,860 square feet which is less than the
minimum one-half of an acre, 21,780 square feet;

That veteran James Hector MacGuish negotiated with
a neighbour to acquire a small parcel of land sufficient to
bring the area up to the minimum of one-half acre, but the
adjoining property was sold before the small parcel could be
acquired and the new owner is not prepared to sell any land
to veteran MacGuish;

That the Director has acquired title to the afore-
said property which was approved in November, 1965;

- 2 -

That veteran James Hector MacCuish has acted in good faith throughout the transaction and it was through no fault of his that land to make up the one-half of an acre could not be acquired; and

That it is deemed advisable to establish veteran MacCuish on the aforesaid property notwithstanding that it contains less than one-half of an acre.

The Committee, therefore, on the recommendation of the Minister of Veterans Affairs, advise that Your Excellency may be pleased to approve the establishment of veteran James Hector MacCuish on part of Lot 7, Concession 1, Township of East Oxford, County of Oxford, Province of Ontario, containing approximately 19,860 square feet in area which is less than the prescribed minimum area of one-half of an acre.

Director such area may be reduced by one-half of one per
cent and paragraph (a) of subsection (2) of the said section

in receipt of a disability pension of 50% or greater;

That veteran Marjorie Mildred Shorthouse is in

the disabilities is assessed in excess of 50% by reason of
bilateral metatarsus planus, varicose veins, parasthesia of
both great toes, limitation of movement of the right ankle -

at a rent of one dollar per annum;

THAT the said Tubercular Veterans Camp transferred

WHEREAS by Order in Council P.C. 1966-1040 of 2nd June, 1966 authority is given for the construction and completion by Canadian National Railway Company, prior to December 31, 1968, of a line of railway from the vicinity of Amesdale on the Redditt Subdivision in a northwesterly direction to a point near Iron Bay on the westerly shore of Bruce Lake, District of Kenora, Province of Ontario, a distance of approximately 68 miles, at an estimated cost of \$11,100,000 representing an average cost per mile of \$163,234;

AND WHEREAS section 3 of Chapter 15 of the Statutes of Canada, 1966 which authorizes the construction of the said line of railway provides that, except with the approval of the Governor in Council, the Canadian National Railway Company shall not in performing the work of construction and completion exceed by more than fifteen per cent the said estimated cost of \$11,100,000 and the said average cost per mile of \$163,234;

AND WHEREAS the Management of Canadian National Railways advises that the actual cost to construct the said line of railway will be \$15,800,000, thus exceeding the authorized estimated expenditure by \$4,700,000 for the following reasons:

"Increase in contract costs for grading because very few contractors were interested and high

- 2 -

unit prices bid for the work. This inflation is general in the contracting field, and has taken place subsequent to the location survey and preparation of the original estimate. It is estimated the increase in costs on this account is in the order of 50%;

Increase in grading quantities primarily due to settlements of existing embankments which occurred considerably in excess of that originally anticipated from soil investigations carried out. A considerable amount of the excavated material was found to be suitable for embankment construction and had to be disposed of thus necessitating finding suitable material which increased quantities handled with a subsequent increase in cost over that originally anticipated; and

It has developed that part-worn rail cannot be supplied for this line and it has been necessary to make use of new rail. This item will effect an increase in cost of \$2,200,000."

THEREFORE, His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Transport, pursuant to section 3 of Chapter 15 of the Statutes of Canada, 1966, is pleased hereby to approve the construction and completion by the Canadian National Railway Company of the line of railway aforesaid at an estimated cost of \$15,800,000 representing an average cost per mile of \$232,353, in lieu of the estimated costs set out in respect of the said line of railway in the Schedule annexed to said Chapter 15.

PRIVY COUNCIL

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 8th June, 1967.

The Committee of the Privy Council have had
before them a report from the Minister of Veterans
Affairs, representing:

That section 23 of the Veterans' Land Act
authorizes the Director with the approval of the Governor
in Council to sell any property that cannot or ought not
to be sold to a veteran as to price or terms for another
sale price or on other terms;

That pursuant to subsection (1) of section 10
of the Veterans' Land Act, with effect the 1st of June,
1949, the Director agreed to sell and qualified veteran
Mondy Surette agreed to purchase a 66-acre part-time
farm property located in Yarmouth County in the Province
of Nova Scotia and, in addition, livestock and farm
equipment acquired by the Director at a cost of \$600;

That pursuant to section 33 of the Veterans
Land Regulations, with effect the 1st of January, 1955,
the veteran was permitted for reasons of re-enlistment
in the Canadian Army to be absent from the said property
and, subsequent to two years of absence, pursuant to
said regulation, veteran Mondy Surette entered into an
agreement wherein he agreed to fulfill a further period
of two years and five months residence on the property
to enable fulfillment of the eight years required under
the agreement to enable a write-off of a part of the cost
of the purchase of the property as well as the cost of
livestock and farm equipment;

That in December 1965, while veteran Mondy
Surette was still serving in the Armed Forces, the Depart-
ment of Transport required his property for the enlarge-
ment of the Yarmouth Airport and purchased it from
Mr. Surette;

That at the time veteran Mondy Surette became an
absentee pursuant to section 33 of the Veterans Land Regula-
tions, he paid an amount of \$115, the full cost of some of
the household equipment acquired on his behalf which he took
with him, and the balance of the livestock and farm equipment
was sold at its market value with the result that an aggregate
of \$360.85 was recovered;

That pursuant to subsection (1) of section 10 of the Veterans' Land Act, with effect the 1st of January, 1961, the Director agreed to sell, and qualified veteran Henry Delmont McEwen agreed to purchase, a 1/8-acre small holding property with the Post Office address of Rural Route No. 1, Mouth of Keswick, York County, in the Province of New Brunswick;

That in March 1961, pursuant to said subsection (1) of section 10 of the Act, an amount of \$500 was approved for the purchase of livestock and farm equipment;

That in May 1965, the New Brunswick Electric Power Commission, a public body otherwise authorized to expropriate, acquired approximately 98.8 acres of the said property, and in August of that year acquired the remainder for the development of the Mactaquac Power Project;

That the chattels purchased for veteran McEwen, which involved eight head of livestock, were retained by the veteran who requested that they be sold to him for \$1;

That since the Department of Justice has expressed the opinion that where land is acquired by a public body otherwise authorized to expropriate or is expropriated by that public body, the Director may only retain the balance of the contract indebtedness, a problem is raised insofar as it relates to the supplementary agreement for the purchase of chattels and the disposition;

That the Director, with a view to solving this problem, has discussed the matter with Department of Justice officials who have also studied the cases of Surette and McEwen and expressed the following opinions:-

- (a) the doctrine of frustration relates to the supplementary agreement but the chattels, title to which remains in the name of the Director, may be returned to the Director for other disposition;

- 3 -

- (b) before consent to sale pursuant to section 11 is obtained the Director ought to make arrangements with the veteran for disposition of the chattels, in which event sale, if at less than cost to the Director, may be made pursuant to section 23 of the Act;
- (c) if appropriate arrangements are not made the veteran ought to be provided the opportunity of acquiring other land on which to complete the initial ten-year period of the contract;
- (d) where the veteran does not wish other land or to buy the chattels they may be returned to the Director and the contract considered terminated without liability on either party; and
- (e) the price for sale of chattels ought to be determined having regard for the number of years of the initial ten-year period not yet expired.

That the Director proposes, consistent with the preceding paragraph, that the contract between the Director and veteran Mondy Surette be deemed to be rescinded as a result of which no liability accrues to either party over and above the aggregate amount of \$360.85 already recovered by the Director on disposition of the chattels; and

That since veteran Henry Delmont McEwen occupied the property for a period of approximately four years and seven months, the Director proposes, consistent with the foregoing opinion and on the premise the chattels were available for sale at the time of sale of the land, to sell the chattels to the veteran for an amount representing 50 per cent of their cost, namely, \$250.

- 4 -

The Committee, therefore, on the recommendation of the Minister of Veterans Affairs, advise that Your Excellency may be pleased hereby to approve the foregoing proposal that the Agreement of Sale of Livestock and Farm Equipment between The Director, The Veterans' Land Act, and Mondy Surette be deemed rescinded and that the amount of \$360.85 previously recovered by the Director be considered as full repayment of the indebtedness related thereto.

The Committee further advise that pursuant to Section 23 of the Veterans' Land Act, Your Excellency may be pleased to approve the sale to veteran Henry Dolmont McEwen for an amount of \$250, of the chattels acquired at a cost to the Director of \$500 and described as one Jersey cow, three heifers and four calves.

\$1,927.27 Tax

\$2,034.48 Penalty

There remains unpaid in this account, an amount of \$8,929.27 which represents current sales tax. The company operates a general printing business and is in very poor financial condition as well as its' principals. Considerable difficulty has been encountered by the Department during the past few years in collecting sales tax. An amount of \$5,000 was offered in full settlement but this was thought insufficient, therefore, a further \$2,000 was requested, making a total of \$7,000. A certified cheque was received for \$7,000 and in view of the fact that seizure and attempted sale by the Sheriff would precipitate bankruptcy without monetary benefit to the Department and prosecution of the principals would no doubt lead to imprisonment, it is best that this sum be accepted. With assistance, it is probable that the company could survive. Any impatient creditor could precipitate bankruptcy. In the circumstances, remission of the amounts indicated is recommended.

Produits "Pere Dominique"
Enrg.,
St. Catharines, Ontario.

\$3,106.41 Tax

\$2,056.20 Penalty

For some years, the production and sale of apple cider, in some areas of Quebec, were less well-organized than at present. Inefficient methods of production rendered uncertain and unstable the quality of the cider or its alcoholic content. Sales methods were unprofessional and varied, the peak season was of short duration and most participants considered it a seasonal occupation not warranting heavy investment. Many used second-hand bottles. Some bottles were labelled, some were not. The subject licensee was one of the more inefficient producers. His records were described as "fragmentary". The alcoholic content of his product, determining the taxability was not identifiable. In 1961, auditors estimated tax of \$3,631.41 to be payable, assuming the product to be taxable. Departmental solicitors did not consider the assessment provable.

Due to the nature of the assessment, difficulty could be encountered if the Department was required to prove any part of its claim. The debtor, Claude Leynaert, has offered and paid \$525.00 as in full settlement of his sales tax indebtedness. Remission of the amounts of \$3,106.41 excise tax and \$2,056.20 penalty is recommended.

J. Stewart Sportswear,
Toronto, Ontario.

\$441.21 Tax

\$749.67 Penalty

For the period June 1st, 1960 to December 31st, 1962, this manufacturer has been assessed \$1,977.44 sales tax, of which \$1,750.26 represents tax on journal credits to sales. The licensee contended these credits represented personal funds put into the company and sales of tax paid jobbed goods through his retail store. Although Mr. Stewart has disputed the assessment

for three years, he has been unable to prove his contentions. He has offered \$1,536.23 as settlement in full on the grounds that this represents a direct financial loss to him personally.

In view of the arbitrary nature of the assessment, which the Law Branch considers unenforceable, it is recommended that remission be granted for tax of \$441.21 and interest penalty of \$749.67.

Supreme Laces Inc.,
Montreal, Quebec.

\$534.82 Tax

\$895.22 Penalty

For the period December 1, 1962 to May 31, 1966, this manufacturer has been assessed \$4,534.82 sales tax, consisting of sales tax payable on sales of lace trimming and frills. The licensee supplied lace to other manufacturers to be converted into trimming. He was not aware that this constituted manufacturing and that tax was payable on his selling price of the trimming. As a result, he paid sales tax on the lace at time of importation and also on the charges for labour. The company paid \$4,000.00 and requested that this amount be accepted in full settlement. Remission of the balance of the assessment and interest penalty has been requested on the grounds that the company is unable to recover the tax and the payment of \$4,000.00 represents a direct financial loss. Also, the accumulation of the tax and penalty could have been avoided if the audit had been conducted within the normal two year period from the date of the last audit.

In view of the circumstances, it is recommended that remission be granted for tax of \$534.82 and the interest penalty of \$895.22.

Ville Emard Ornamental Iron
Works Reg'd.,
Montreal, Quebec

\$661.05 Tax

\$568.01 Penalty

For the period December 1, 1962 to July 31, 1965, this manufacturer of ornamental iron works has been assessed \$3,161.05. The assessment covers tax on installation charges which were disallowed. As no documents were kept by the licensee to substantiate the installation charges shown on these invoices the Auditor allowed the deduction of 15% in view of installation costs. The licensee contended that tax had been properly remitted, and the charges for installation on his invoices represented his actual expense. After lengthy discussions, the licensee paid the sum of \$2,500.00, which constitutes the direct financial loss as the tax cannot be recovered from his customers.

In view of the circumstances, it is recommended that remission be granted for tax of \$661.05 and interest penalty of \$568.01.

The Committee of the Privy Council have had
before them a report from the Minister of Veterans
Affairs, representing:

That in December, 1954, The Director, The
Veterans' Land Act, sold five acres of land at Porto Belle,
in the Province of Nova Scotia, to Barry Linwood Oickle,
a qualified veteran;

That the Director also provided assistance for
the veteran to construct a house on the land;

That the total cost of this property to the
Director has been calculated at \$6,600 ;

That as a consequence of defaults committed
by the veteran, the Agreement for Sale between the veteran
and the Director was rescinded, with the consent of the
Provincial Advisory Board, on April 19, 1967;

That the veteran has now applied to re-purchase
the property for cash at a price of \$6,630.84, together with
interest and other proper charges accruing after June 1, 1967;

That the proposed sale price equals the debt which
the veteran still owed for the property at June 1, 1967; and

That the Director recommends a further sale of the
property to the veteran at the cash price aforesaid.

The Committee, therefore, on the recommendation of
the Minister of Veterans Affairs, pursuant to section 23 of the
Veterans' Land Act, advise that Your Excellency may be pleased
to approve the sale of property described in a Deed from Linwood
H. Oickle to The Director, The Veterans' Land Act, registered

price is paid.

29th June, 1967

The Committee of the Privy Council have had
before them a report from the Minister of Veterans Affairs,
representing:

That subsection (1) of section 24 of the Veterans
Land Regulations provides that the Director may not approve
financial assistance on behalf of a veteran qualified as a
small holder on an area of land containing less than one-half
of an acre but at the discretion of the Director this area
may be reduced by one-half of one per cent;

That at the request of qualified veteran Lloyd
George Cole, The Director, The Veterans' Land Act, did acquire
part of Lot 10, Concession 2, Division "C", Township of Guelph,
County of Wellington, Province of Ontario, said to contain
21,780 square feet in area;

That subsequent to acquisition of the aforesaid property,
it was discovered that a 10 foot strip along the front had
previously been taken for road widening purposes with the re-
sult that the area acquired was only 21,120 square feet or 660
square feet less than one-half acre;

That it is through no fault of the veteran that the
area is less than one-half acre in area and the costs of
acquiring additional land, if possible, would be prohibitive
in light of any benefits that might accrue therefrom; and

That it is deemed advisable to establish veteran
Lloyd George Cole on the aforesaid property which contains
660 square feet less than one-half acre in light of the cir-
cumstances and the fact that the land reducing the area was
taken for public purposes.

- 2 -

The Committee, therefore, on the recommendation of the Minister of Veterans Affairs, advise that Your Excellency may be pleased to approve the establishment of veteran Lloyd George Cole on part of Lot 10, Concession 2, Division "C", Township of Guelph, County of Wellington, Province of Ontario, containing 21,120 square feet in area which is less than the prescribed minimum area of one-half of an acre.
